Following this, however, came a report from Washing-ton saying that the anti-contraction bill was up in the Benate, and that it would doubtess pass, although it was meeting with considerable opposition, and there-upon, without any good reason, the price suddenly adwanced to 137%; but it afterwards reacted, and the la-best quotation was 127% a 137%. There was a dimin-land borrowing demand for coin, and a more ample supply, owing to the daily disbursements of the Sub-Ecasury, and loans were made at rates varying from Erestory, and loans were made at rates varying from three to seven per cent for carrying. The gross clear-tags amounted to \$79.040,000, the gold balances to \$2,256,297 and the corrency balances to \$2,958,619. Mr. Tracy, the President of the Chicago and Rock

Meanwhile the plaintids in the obably be that the new stock would be called in and paid for. Meanwhite, unless some of the directors of the company have been ruilty of fraud to a large exthe additional abares have been issued, the proceeds re Tracy and Dows in thus adding \$4,900,000 to the capital without consulting the stockholders is, nevertheless, emphatically condemned as a discreditable stockjobbing ration for the personal benefit of themselves and eir immediate friends.

funds at six and seven per cent, the transactions at leven having been rather exceptional. The domestic anges are working in favor of this centre, and the respect is favorable to uninterrupted monetary ease, a the discount line there is a very quiet movement, and the best grade of commercial paper is rated at 7 a 8 per cent on the street, while the banks are discounting

reely for their customers at the legal rate.

There was a good investment domand for government securities at the counters of the leading dealers, and although five-twenties of 1862 declined slightly in the morning, in sympathy with gold, they afterwards re-covered. In the afternoon there was a brisk lative as well as investment inquiry for all the Eve-twenties, and purchases of the issues of 1862 and 1865 are being made by the foreign bankers for ship-ment. The report from Washington that the Senate debating the anti contraction bill passed by the House, and that it had refused to postpone its considera-tion indefinitely by a formal vote, tended to strengthen the upward tendency of prices.

The fact that the general stock market is high and

rising, and that a six per cent in currency slock, like New York Central, is selling at 122, while governments, bearing the same rate in gold, are only rest included, tends to stimulate the demand the latter as the cheapest invest-nts in the country. There was renewed activity in the market for mining chares, but this appears to be entirely owing to con-certed action on the part of a few brokers and other professional operators, who have been carrying the various apeculative shares for some months past, during which there has been no demand for them. The activity in railway shares has induced these holders to resume the manipulation of their favorite gold, silver and copper but the temptation to do so is by ne means strong, con-sidering that most of them are of very doubtful value, although some may be selling considerably below it. The public had, therefore, better carefully avoid these stocks, unless in these cases where they know and are estinfied with the character of the property they may buy. At the first board Consolidated Gregory Gold closed Sc. higher than at the same time yesterday, selling at \$5 60. La Crosse Gold was Sc. lower, salling at

growing out of the action of certain collectors, who, ting under special authority from Washington, have ado soizures for alleged frauds in other than their own districts, and commessed suits thereon without consul-tation with the Collector in whose district the seizure as made. It is contended that although power to selze special cases may be conferred on any officer in the in special cases may be conferred on any officer in the department, it is incumbent on such official to report such cases, after seizure, to the Collecter in charge of the district in which the seizure operates, and that failure so to do is directly afverse to the regulations adopted for the government of the department. On the other hand it is averted that the granting of special seizing power to a collector obviates the necessity of making such report, or consulting with the district Collector Bailey, of the Fourth district, who, some months ago, as fully reported in the Haraku at the time, saized the large rectifying establishments of S. N. Pike & Co.; Gordon, Fellows & Co.; Jones & Co., and several others, which are out of his district, no return of which has ever been made to Collector Shook, in whose district (the Thirty-account) most of them were located. The order of the department governing these cases, and which, it is contended, Collector Hailey has volated, is as follows:—Subdivision four of series three—instructions to district attorneys, collectors and marshals—comprised in the "regulations respecting suits arising under the Internal Revanue laws," issued by the Commissioner April 13, 1367, provides that:—

Whenever a district attorney shall, in any manner, become possessed of information which shall lead him to believe that a tresuess upon the property of the United States (of which-possession is held by virtue of the Internal Revanue laws, has been cummitted, he will immediately report such information to the Collector shall agree as to its propertery, and shall be immediately commissioner of the Contents and the contents and the collector shall agree as to its propertery, and shall be immediately commissioner of the contents as the contents and the collector shall agree as to its propertery, and shall be immediately commissioner of internal revenue, and swall has been cummitted, and if the collector shall agree as to the Commissioner of internal revenue, and swall has instructions.

Opprior of Mermopolytan Revenue Board, Scharler of the Warlous collectors:—

Opprior of Mermopolytan Revenue Board, Scharler of the Warlous of the Mermopolytan Revenue Hoard, It is my special dearie that there shall be more co-operation between the different classes of officers than there has been for some time past. With the hope that a mutual conference will tend to promote mutual concert of action, I would request you to be present co-morrow, the 9th inst., at one o'clock, at a meeting of the Collectors of the several districts included in the Metropolitan district, at the rooms of the Hoard. If you cannot make it convenient to attend yourself, I shall be pleased to see your principal departy. Yours respectfully, THOMAS HARLAND, Deputy Commissioner.

To —, Collector, — District, New York.

To accordance with the request contained in the above circular a meeting of the collectors was held at the rooms of the Mostropolitan Board at one o'clock. P. M. yesterday, Deputy Commissioner Harland presiding. Every district except the Fourto and Ninth was represented either by the collector or his deputy. The conference sated three hours and a half, but did not result in any definite action. From the character of the opinions expressed at the meeting it is probable that all seizures made hereafter by order of the Board will be reported to the collectors of the districts in which they are made, as well as to the Board itself, and that no suits will be instituted in such cases unless notification be given to the collector, A meeting of the assessors of the various districts is called for Saturday next at elevon o'clock, for

monious action among the average partment.

It was rumored yesterday that Collector O'Callagban, of the Nintu district, had been removed, and that Mr. Evans, former Collector, had been appointed to the
